Subject: RE: Proposal for GW Monitoring at Tower Standard

Great. Thanks for the extra effort that it takes to stay on top of Tower Standard while on travel for Prestons!

I will be gone starting tomorrow until 11/5. Can you act for me one of the days? I think it is 11/4.

Bob,

Kristen shared this information with me. John had asked if we could get back to him within 2 days. I saw that Kristen provided you some feedback. Will you have a chance to look at this by Thursday? So tight a timeframe!

Sherry

Subject: Proposal for GW Monitoring at Tower Standard

Attached is the proposed scope of work associated with the groundwater monitoring wells at the Tower Standard that was prepared by REI. The second attachment is a map capturing the approximate location for placement of the wells based on our discussions last Thursday. DNR has not had a chance to review the proposal but will try to complete our review by the end of Wednesday. In light of the schedule for drilling next week would it be possible for you to complete your review by noon on Thursday?

Please feel free to share this information with others and let me know if you have any questions.

We are committed to service excellence.

Visit our survey at <http://dnr.wi.gov/customersurvey> to evaluate how I did.
